

Task 2

Follow all labs instructions and in the step of creating a textfile.txt write your **FullName and ID** instead of “Hello World” then transfer it from host to target machine then run **md** command after that **Upload a screenshot like the below**

Name the image file with Your ID. Don't upload a doc or pdf files only the image

```
menna@menna-VirtualBox: ~/Desktop/embedded-linux-qemu-labs/test
